UNIVERSITY OF ALBERTA

People, Places, Products is a part of People: Cultures, Times, Places, an Addison-Wesley social studies program. The program is based on an instructional model developed by John U. Michaelis, Professor of Education at the University of California, Berkeley. Richard E. Gross and Phillip Bacon serve with Dr. Michaelis as directors of the program. Dr. Gross is Professor of Education and Director of Teacher Education at Stanford University. Dr. Bacon is Professor and Chairman in the Department of Geography at the University of Houston.

Ruth H. Grossman is Professor of Education at City College, City University of New York. George O. Roberts is Professor in Comparative Culture and Assistant Vice-Chancellor for Academic and Student Affairs at the University of California, Irvine.

Fishing Communities

KIRSTEN II

1 Why do you think these towns are near the water?
What do people get from the sea?

What are the people using to catch fish?
How can you tell?

What are the boats used for?
What do the people do on the boats?

What are these people doing?
Why is this work needed?

Why are fish important?
What can harm fish?

Why do people study fish?
How could this work help other people?

How can a storm cause problems for fishers?

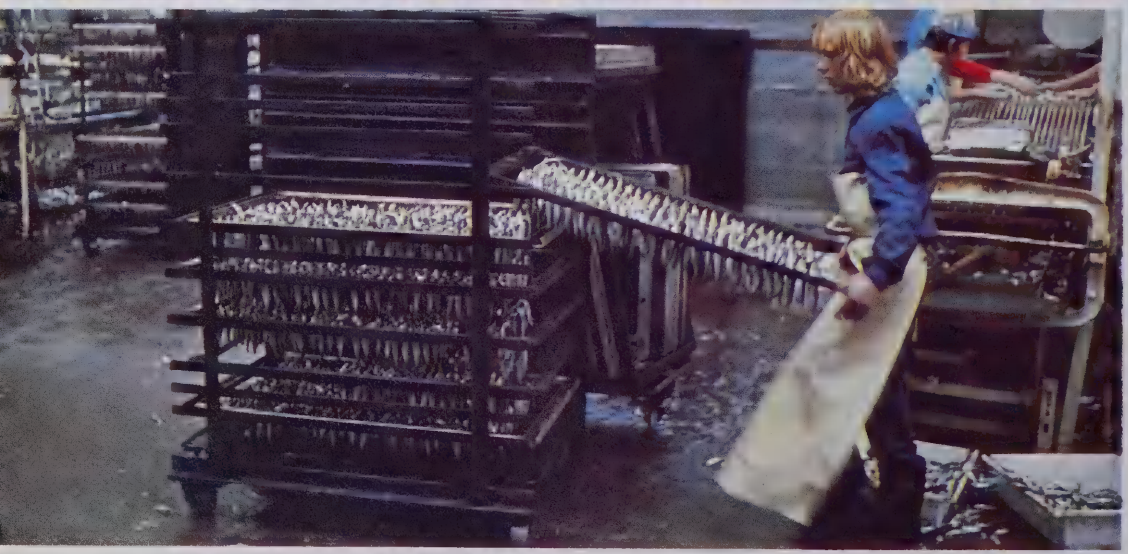
What has the storm done?
What other problems do fishers have?

2 Do fishers eat all the fish they catch?
What will be done with some of the fish?

How do people use fish?
Where do they go to get fish?

How are the fish being packed?
How are they being moved?

What is being done to these fish?
Why?



Where are the fish now?
What will happen to them next?

What will the cans be used for?
Where will the cans be sent?

3 What are these children learning?
What have you learned outside school?

Where are these children?
How are they learning?
Do you ever do these things?

What are these children doing?
What games do you play?

Why do people have holidays?
What do people do on holidays?
What holidays do we have?

What do these pictures tell us?
What would you draw to tell people about the way you live?

How are these homes like yours?
How are they different from yours?

Why do people need fish?
What other things do we get from the sea?

What do people use to catch fish?

Review

Why are these things being done?
What can be done with the fish now?

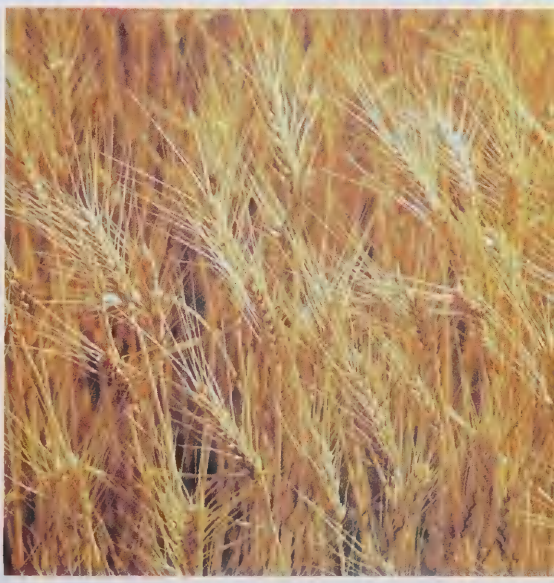
How are people in these two countries alike?
How are they different?

Grain-Farming Communities

1 What kind of land do you see?
How are people using the land?

Rice and wheat are growing here.
What do all plants need in order to grow?

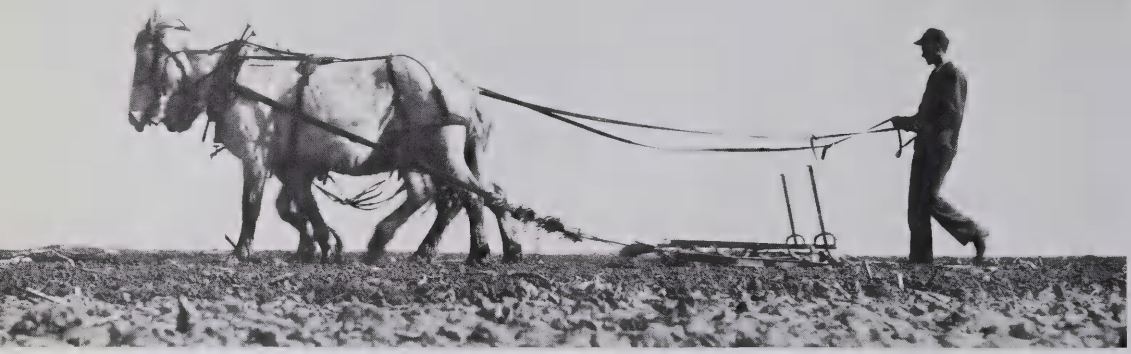
These people are growing rice.
How does the animal help?



What do these pictures show?
How are wheat plants different from rice plants?

What can harm plants?
Why do people need plants?

How does the scarecrow help the farmer?
How does the plane help the farmer?



What are these farmers doing?
How are the horses helping?

How is farming today different from farming long ago?
What things are the same?

2 Machines cut and clean the wheat.
What do you think will happen next?

The ripe wheat is stored in tall buildings.
Next the wheat will be taken to a mill, where it will be ground into flour.

These people are cleaning wheat.
How else could this be done?

These people are drying rice.
What other foods are dried?

Long ago, wheat was ground into flour by hand.

How is it usually ground today? Why?

What has happened to the wheat?
How do farmers help people in cities?
How do people in cities help farmers?

How is rice harvested?
Why can't machines be used in some places?

What happens to the rice before people eat it?

What foods are made from rice?

3 What foods are these people eating?
What plants do people use for food?

What are these people doing?
How are they like you?
How are they different?

How are these pictures alike?
What are the people doing?
Do you ever do these things?

In what kind of community are these things happening?

Do they happen in your community? Why?

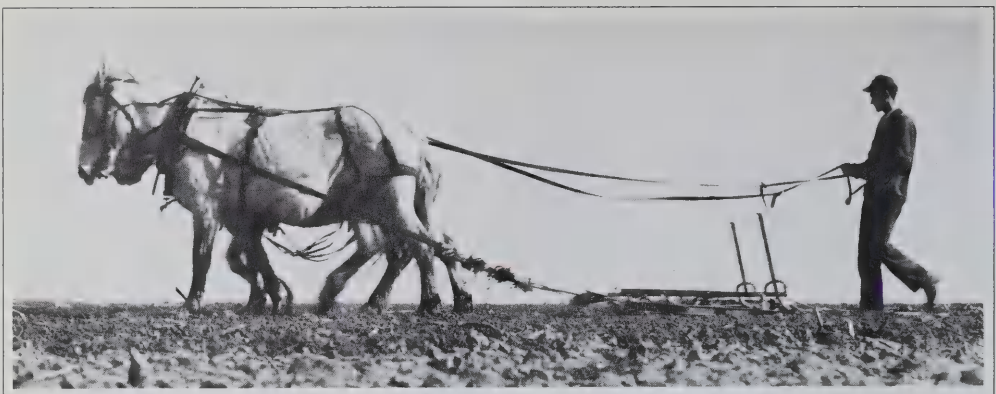
What are these farm families doing?
Why do farm families need towns?

What work do these people do around the home?

How do people in families help each other?

What are these people doing?
Do you do things like these? What?

What are these people doing?
Do you do things like these? What?



How did horses help farmers long ago?

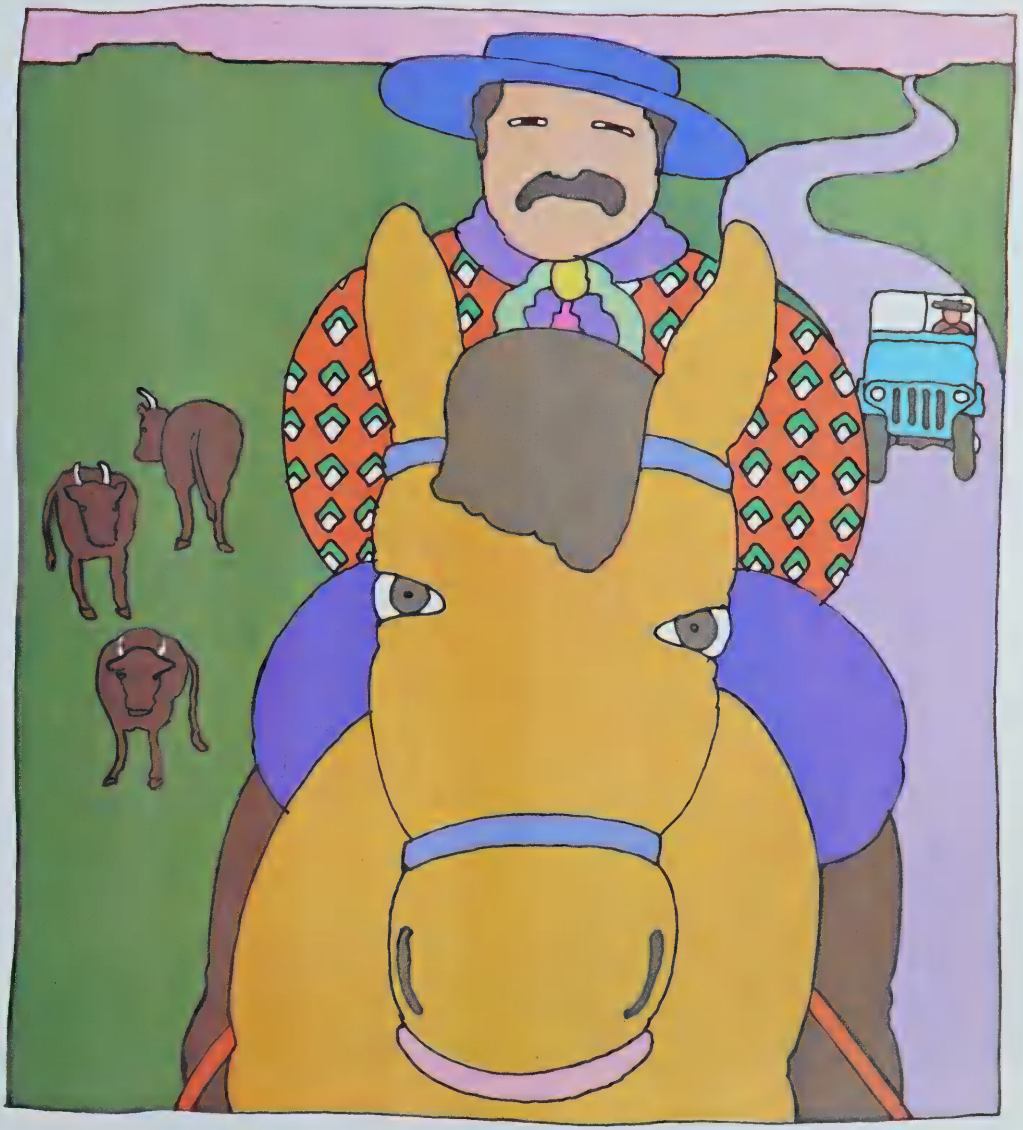
How do machines help farmers today?

Review

How do farmers help people in other communities?
How do other people help farmers?

What do these children do that is the same?
What might they do that is different?

Cattle-Raising Communities



1 What do you see at these ranches? How is the land being used?

What do these cattle need?

What are cattle used for?

What does the ribbon mean?
Why do you think these men are happy?

What are these men called?
What kind of work do they do?

What is happening in these pictures?
What tools are the people using?

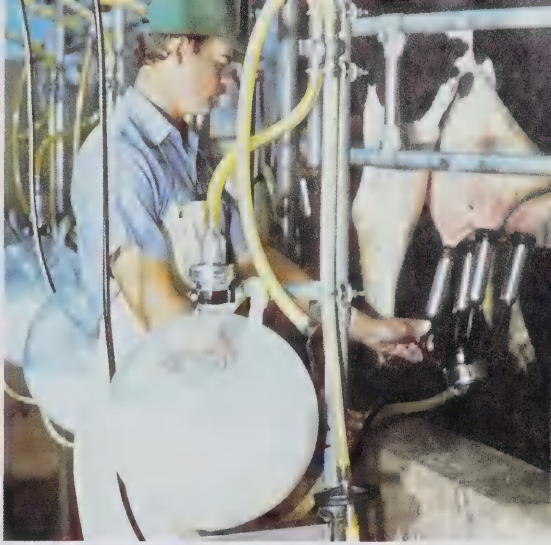
How do these people help take care of cattle?
Why is this work needed?

How could winter cause problems for cattle?

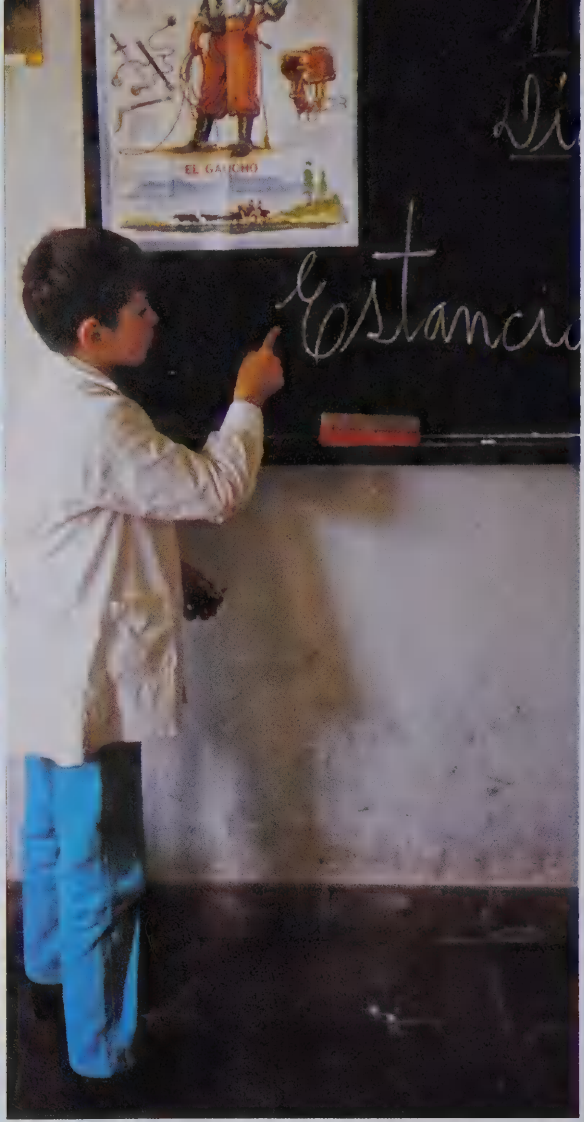
2 What is happening here?
Where will the meat be taken?

Where do people go to buy meat?
Who gets part of the money?

What kind of farm is this?
What do people get from here?



What foods are made from milk?
How do such foods get to your house?



3 Some children travel a long way to school. Why are schools sometimes far apart?

What games are the children playing?
What games do you play at school?

What are these people doing?
Where do you think they are?
What else might happen here?

A fiesta is like a party.
What things might people do at a fiesta?
What kinds of parties have you been to?

What are these people making?
What tools are they using?

Why do people make things like these?
What things have you seen people make?

Why is this a good place to raise cattle?
What do cattle need?

How are their jobs alike?
How are they different?

Review

What is the same about these two pictures?
What is different?

What things do people do in every community?

Lumbering Communities

A14
A14
A14
A14

1 Why are forests important? What do we get from forests?

What kinds of trees grow in your community?
How are they used?

What do these pictures show?

What do the people use to help them in their work?

What is happening here? Why?
What would happen if new trees were not planted?

How are the logs being moved?
What do you think will happen to them next?

How are elephants and tractors alike?
Why are logs moved in different ways?

Fires destroy parts of forests every year.
How do forest fires start?

How do people fight forest fires?
What other things can harm trees?

2 These people are marking logs and taking off the bark.
What will happen to the logs next?

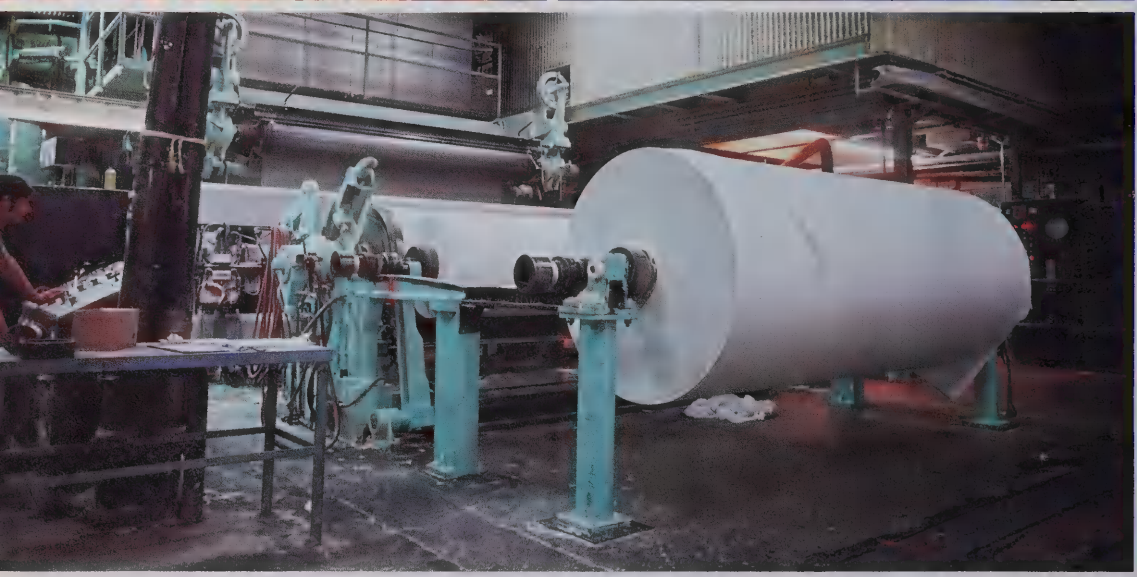
How is the water being used?
What special skills do these people have?

How did the logs get to this lumber mill?
What will happen to them now?

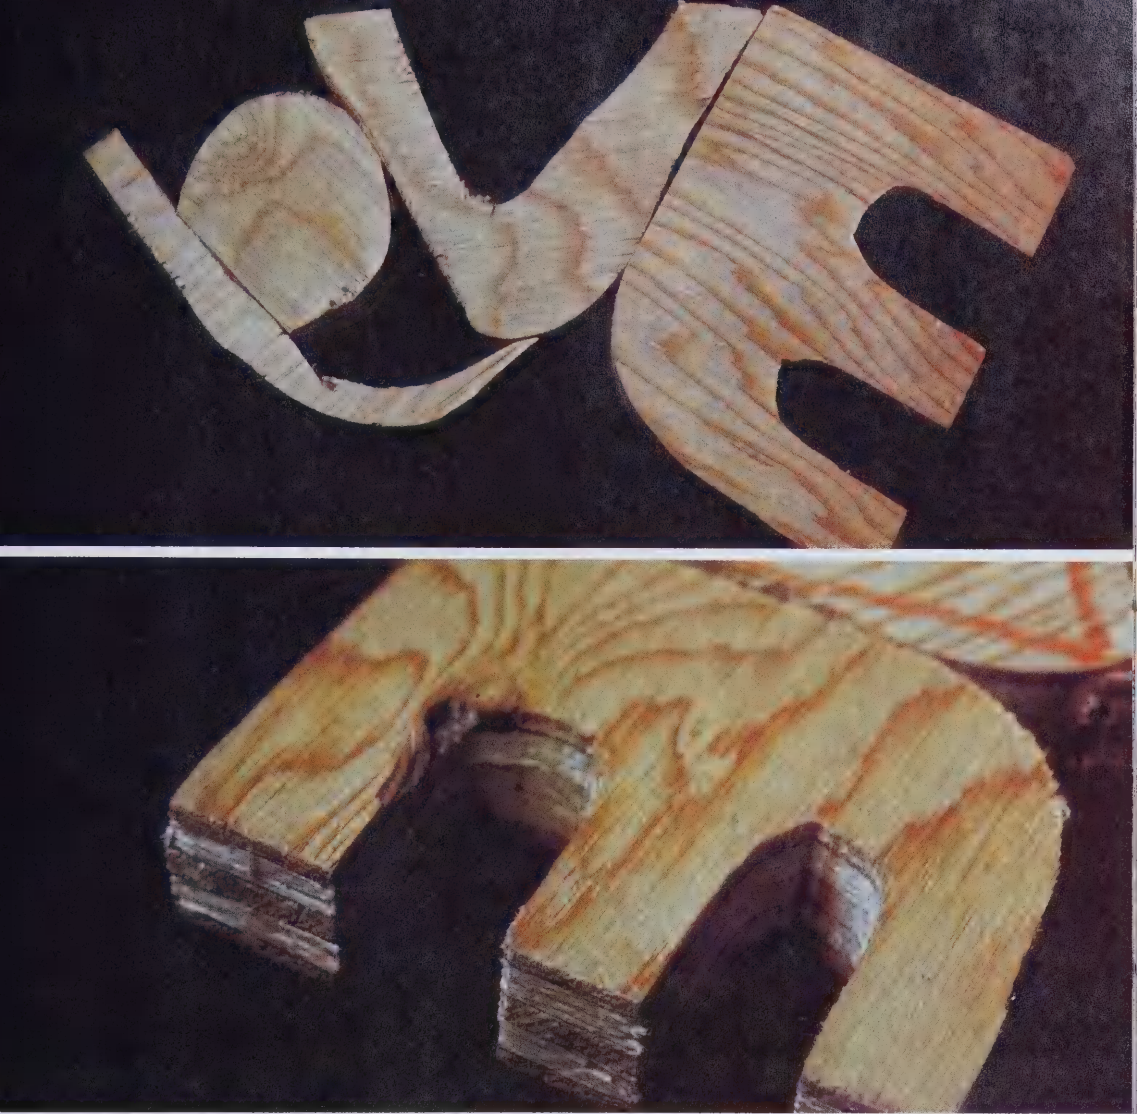
What kinds of work do you see being done?
What has happened to the logs?

This wood is being piled up.
What might the wood be used for?

Where do you think this wood will go?
Where would you go to buy wood?



How is wood being changed?
What other products do we get from wood?



This wood is put together in layers.
Why might some woods be put together
this way?

How is wood being used here?
Can you find all the things that are made of wood?

How has wood been used here?
What things in your classroom are made of wood?

3 Why do you think the homes are near the water?
What do you see in the water?

Why do people learn different things in different countries?

How are schools around the world the same?

What are the people doing?
How are the pictures alike?
How are they different?

What are the children doing?
Do you do things like this?
What?

What are these people doing? Why?
Do you ever do these things with your family?

What are these objects?
Why do you think they were made?
How are they like statues you have seen?

What are these people doing?
How is it alike? How is it different?

What has happened to the wood?
Why has this been done?

Review

What are the people doing?
Why is this work needed?

Why do people do things like these?

Cloth-Manufacturing Communities

1 What kinds of clothes do you see?
How are they different from each other?

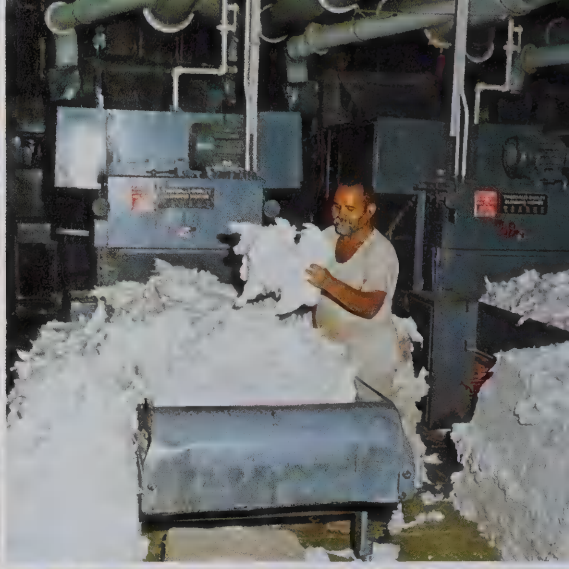
Why might people dress in these ways?
Have you ever dressed up like this? Why?

What is special about these clothes?
Where would these clothes be needed?

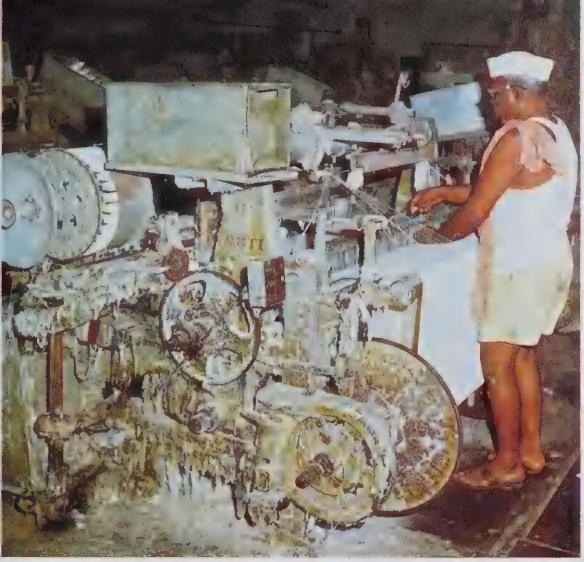
What kinds of clothing are shown here?
What kinds of clothing do you wear?
Why?

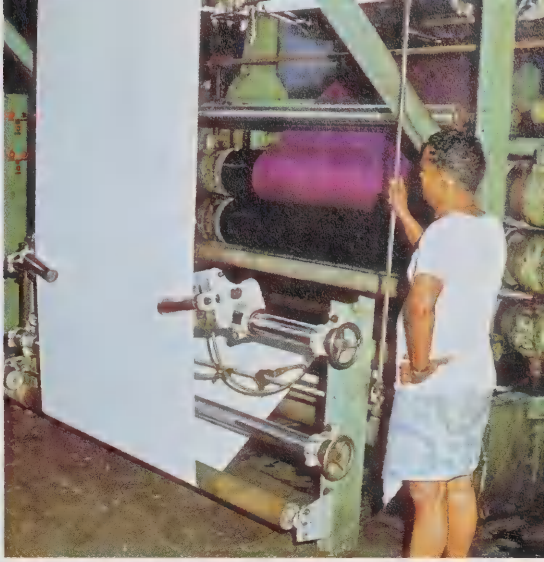
2 These people are growing cotton.
How is this like growing wheat or rice?

What job do the camels do?
What other animals help people in their work?



What is happening to the cotton?
What color is it?





Why are there so many colors now?
What things are made of cotton?
Are you wearing anything made of cotton?

What are these workers doing?
What will happen to this clothing?

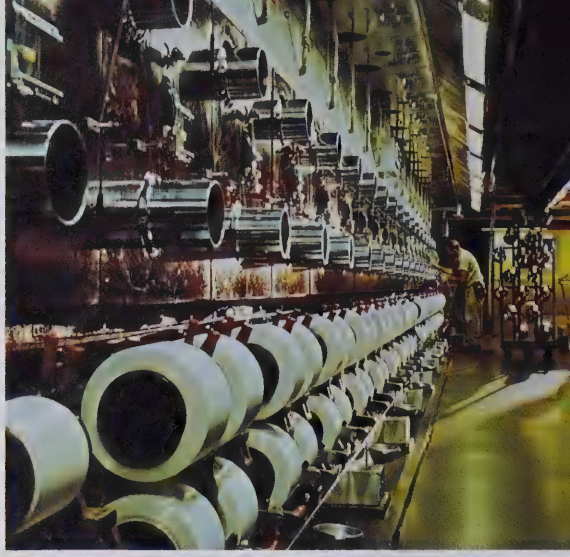
Why do some people make clothes at home?

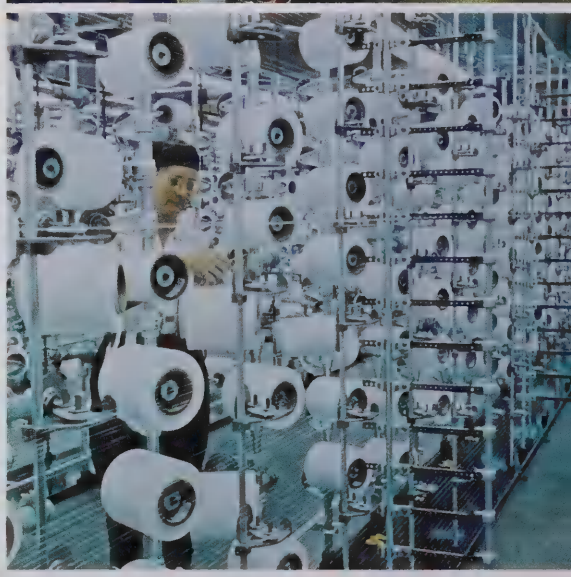
3 What do we get from sheep?

How is wool different from cotton?
What do you wear that is made of wool?

Silkworms spin a special thread.
Do you know what the thread is called?

It takes a long time and many silkworms
to make one silk coat.
Why don't we wear silk clothes every day?





Nylon is being made here.
How is nylon different from cotton and wool?

These things are made of nylon.
What other things can you name that are made of nylon?

4

Why do people live in cities?
What do you see in these cities?
How is land used in cities?

Where are these people?
What are they doing?

Why do people around the world wear
different clothes?
Why do they eat different foods?

What are these people doing?
Is this done often today? Why?

What is happening in these places?
Why do people come here?

How do people enjoy themselves?
What do you like to do with other people?
What do you like to do by yourself?

What things do all people share?
What things would you like to share with someone from another country?

The Taj Mahal is in India. The Washington Monument is in Washington, D.C.
Do you know why they are famous?

Why do people wear different kinds of clothing?

How does this work help other people?

Review

How is their work alike?
How is it different?

What do people in these communities share?
